Index  107
NextGen® Enterprise Patient Portal (formerly NextGen® Patient Portal) provides you with a fast, reliable, and easy-to-use method to communicate with your medical service provider through a convenient, safe, and secure environment. You can:

- Enroll with multiple practices
- Request, book (real-time) and/or cancel appointments
- Request medication renewals
- Send and receive secure messages to and from your provider
- Complete, submit, and review online forms
- Complete, submit, and view Interactive Medical Forms
- Request Personal Health Record (PHR)
- View the chart with health record details
- Receive and review documents
- Receive and review patient education material
- Update account information
- View statements online
- Make payments online

**Note:** If your practice has customized NextGen Enterprise Patient Portal, some of the features listed and described throughout this document may not be available on your NextGen Enterprise Patient Portal account.

**Web Browser Requirements**

NextGen Enterprise Patient Portal works best with the following:

- Microsoft® Internet Explorer® 11.0 or later.
If you are using Internet Explorer 11.0 or later in the compatibility mode, few pages may not load correctly. You can remove the NextGen Enterprise Patient Portal link from the compatibility mode to load the pages correctly. To remove the NextGen Enterprise Patient Portal link, open Internet Explorer > press Alt > click Tools > select Compatibility View Settings > under Website you’ve added to Compatibility View, select the NextGen Enterprise Patient Portal link > click Remove > clear the Display intranet sites in Compatibility View check box > click Close. Re-open your browser.

- Mozilla® Firefox® 54.0 or later
- Google Chrome™ 59.0 browser or later
- Opera
- Safari 9.1 or later
- Android™ 4.0 or later or Apple® iOS 7.1 or later (for the mobile version)

The latest versions of internet browsers, support 128-bit SSL encryption (which is a way of making information secure). To determine if your browser supports 128-bit encryption, click Help on your browser's menu bar and select About. If your browser does not support 128-bit SSL encryption, visit the respective company website and upgrade.

### Internet Security Considerations for NextGen Enterprise Patient Portal

Here are few suggestions to help protect your privacy and keep your information secure:

- Never save user names and passwords for any websites on the internet. Saving a password can be useful but can put your personal information at risk. If possible, you should disable the save password option so no one else can log on to your account.

- Select the five login security questions from the list and type your answers. All the security questions must be different. The security questions and answers are important to protect your confidential medical information and your account related security.

- For a public or shared computer, it is important that you always log off completely by clicking the Log Out option. Logging off makes it impossible for any other person (using the same computer) to view the contents of your account. Wherever possible, delete the web browser's cache and cookies. The cache maintains a copy of web pages that have been viewed recently.

- Keep your computer antivirus program up-to-date and make use of a firewall.

- Do not leave your computer unattended while logged on to NextGen Enterprise Patient Portal. If you have to leave your computer unattended, log off from all programs and close all the open windows that may display sensitive information. You are automatically logged off if there is no online activity for 20 minutes.

**Caution**: To comply with the Health Insurance Portability and Accountability Act (HIPAA) and the Certification Commission for Healthcare Information Technology (CCHIT) requirements for security of patients’ medical information, NextGen Healthcare strongly recommends that any and all instances of patients’ Protected Health Information (PHI) that are stored on portable media devices be encrypted using the Advanced Encryption Standard (AES) – 128-bit or higher.
Username and Password Policy

In NextGen Enterprise Patient Portal, the username and password policy has been updated for the following pages:

- Enrollment
- Logon

Account Settings

The username and password policies are as following:

- Your username must be unique. You must provide a username in between 6 to 50 characters and it can be a combination of alpha-numeric and special characters (except any whitespace as character). The user name is not case sensitive.

- You must choose a password that is easy to remember but difficult for others to guess. The password must be in between 8 to 200 characters. The password must be a combination of upper or lower case letters, numbers, and special characters. You should not use commonly used passwords such as password or password1. To get the mostly used password details, visit the list of most common passwords page.

If the password meets the password policy, then the corresponding x marks for each criterion will change to tick mark.

Note: The new username and password policy also applies to the mobile version of NextGen Enterprise Patient Portal.

Email Notifications

You will receive an email notification in the following cases:

- When you receive any correspondence from the practice, such as appointments, documents, statements, medications, messages, templates, interactive medical forms, personal health record.

- When your practice locks or unlocks your accounts.

- When you change your username, password, security questions and answers, or an account email address.

Note: Spam blocking software used by email providers such as AOL® and NetZero can block legitimate emails. To ensure that you are receiving NextGen Enterprise Patient Portal emails, add PatientPortal-noreply@Nextgen.com to your contact list, address list, or Do Not Block list. If you are using your own spam filtering software, make sure you are not filtering out email from PatientPortal-noreply@Nextgen.com.
Use the following information to determine the relevant enrollment method in NextGen Enterprise Patient Portal.

<td></td>
</tr>
</tbody>
</table>

**Enroll Using a Token**

If you have received a token from your practice, follow the instructions in this section to complete the enrollment.

1. On the logon page, click **Create Account**.
   - The **Terms and Conditions** page opens.
2. Read the terms and conditions and click **I Accept**.
   - The **New to Patient Portal** page opens.
3. Click **I have an enrollment token**.
   - The **Token details** page opens.
4. On the **Token details** page, under **Enter token details**, do the following:
   a. Type the token number that you have received from your practice.
   b. Type your date of birth in mm/dd/yyyy format.
   c. Type your last name.
d) Type your email address. Adding an email address will help you to reset your password or recover your account when required. This email address is considered as your account email address (see "Add a Unique Account Email Address during Enrollment" on page 14). If you add your email address, then after the enrollment completion, you will receive an email notification states that you have completed the NextGen Enterprise Patient Portal enrollment process successfully. Open the email and verify your email address.

**Note:** If you do not wish to provide your email address, select I do not wish to provide an email address. Then the Email address field will not be available.

5 Click Next.

**Note:** If your email address is already associated with an existing account, you will be redirected to the Account credentials page. If you see a message that says your email address is already associated with another account, probably you already have a NextGen Enterprise Patient Portal account using the same email address. You can either add or append the practice to your existing account or you can type a new email address to create a new account. For more information, see the When Your Email Address is Associated with an Existing Account (on page 20) section.

The Account options page opens.

6 On the Account options page, do one of the following:

- If you are new to NextGen Enterprise Patient Portal, click Sign up for a new account (see "Create a New Account" on page 12).
- If you have already enrolled in NextGen Enterprise Patient Portal and you want to add another practice to your existing account, click Add to an existing account (on page 11).
**Add to an Existing Account**

1. On the **Account credentials** page, under **Verify your account**, type the username and password for your existing account, and click **Next**.
   
   If you have already enabled two-step verification using Google Authenticator™ earlier, you will be redirected to NextGen Enterprise Patient Portal home page. Otherwise, the **Google Authenticator** page opens.

![Google Authenticator Image](image)

2. On the **Google Authenticator** page, do one of the following:
   
   - To set up Google authentication for your NextGen Enterprise Patient Portal account, click **Get started** (see "Use Google Authenticator to Secure your Account" on page 14).
   - If you do not want to enable Google authentication for your NextGen Enterprise Patient Portal account, click **I am not interested**.

   **Note:** If you have enrolled without setting up Google Authenticator, you can set it up from home page > **Settings** > **Account Settings** > **Google Authenticator**.

**Create a New Account**

1. On the **Account credentials** page, under **Set up account**, do the following:
   
   a) In **Username**, type your username.
   
   b) In **Password**, type your password.

   For more information about the latest user name and password policies, see the Username and Password Policy (on page 9) section.
c) In **Confirm Password**, re-type your password.

2 Click **Next**.

The **Security questions** page opens.

3 Under **Set up security questions**, select all five security questions and type the answers. Make a note of the security questions and associated answers for account recovery in future.

4 Click **Submit**.

The **Google Authenticator** page opens.

5 On the **Google Authenticator** page, do one of the following:
   
   - To set up Google authentication for your NextGen Enterprise Patient Portal account, click **Get started** (see "Use Google Authenticator to Secure your Account" on page 14).
   - If you do not want to enable Google authentication for your NextGen Enterprise Patient Portal account, click **I am not interested**.

**Note:** If you have enrolled without setting up Google Authenticator, you can set it up from home page > **Settings** > **Account Settings** > **Google Authenticator**.
Use Google Authenticator to Secure your Account

1 Under Get codes from Google Authenticator, do one of the following:
   • If you are an Android user, click I have an Android phone.
   • If you are an iPhone user, click I have an iPhone.

2 Point your Android phone or iPhone at the QR code to scan and verify Google Authenticator's connections with your account and click Next. You will receive a six-digit authentication code.

Note: Whenever you log on to NextGen Enterprise Patient Portal account you have connected with Google Authenticator mobile application, you must type a six-digit verification code. If you open the Google Authenticator mobile application, it will generate a new random code each time for you to use.

3 Type the verification code and click Verify.
   The NextGen Enterprise Patient Portal home page opens.

Add a Unique Account Email Address during Enrollment

In NextGen Enterprise Patient Portal, you can associate a unique email address with your account. This is to prevent associating multiple accounts with the same email address. It also provides you with a secure way to reset password or recover your account with minimal support. It is recommended that you add an account email address and verify that email address.

Note: You can view your unique account email address in your home page > Settings > Account Settings > Account Email. You can set your unique account email address as preferred notification email method. In future, you can update your account email address, if required.
Enroll Using Temporary Username and Password

If your practice has provided you a temporary username and password, you can log on to NextGen Enterprise Patient Portal and activate your account.

1. On the logon page, click **Create Account**.
   The **Terms and Conditions** page opens.
2. Read the terms and conditions and click **I Accept**.
   The **New to Patient Portal** page opens.
3. Click **I have a temporary username and password**.
   The **Temporary username and password** page opens.
4. On the **Temporary username and password** page, under **Enter temporary username and password**, do the following:
   a) Type the temporary username provided by the practice.
   b) Type the temporary password provided by the practice.
5. Click **Next**.
   The **Account credentials** page opens.
6. On the **Account credentials** page, under **Set up account**, do the following:
   a) In **Username**, type your username.
   b) In **Password**, type your password.
      For more information about the latest username and password policies, see the Username and Password Policy (on page 9) section.
   c) In **Confirm Password**, re-type the password.
7. Click **Next**.
   The **Security questions** page opens.
8. Under **Set up security questions**, select all five security questions and type the answers. Make a note of the security questions and associated answers for account recovery in future.
9. Click **Submit**.
   The **Google Authenticator** page opens.
In the **Google Authenticator** page, do one of the following:

- To set up Google authentication for your NextGen Enterprise Patient Portal account, click **Get started**, and do the following:
  - If you are an Android user, click **I have an Android phone**; if you are an iPhone user, click **I have an iPhone**.
  - Point your Android phone or iPhone at the QR code to scan and verify Google Authenticator’s connections with your account and click **Next**. You will receive a six-digit authentication code.

![Set up Google Authenticator](image)

- Type the verification code and click **Verify** to access the NextGen Enterprise Patient Portal home page.

- If you do not want to enable Google authentication for your NextGen Enterprise Patient Portal account, click **I am not interested**, and click **Continue** to access NextGen Enterprise Patient Portal home page.

**Note:** If you have enrolled without setting up Google Authenticator, you can set it up from home page > **Settings** > **Account Settings** > **Google Authenticator**.

### Enroll Using an Invitation Link

If your practice has sent an email and invited you to enroll in NextGen Enterprise Patient Portal, use the enrollment link in the email. You must have a phone number and date of birth registered with the practice or have a person number.

1. Click **Enroll Now** or the enrollment link you received from your practice in your email address. The **Terms and Conditions** page opens.
2. Read the terms and conditions and click **I Accept**.
The Personal information page opens.

3 On the Personal information page, do one of the following:
   - If you have registered with a phone number and your date of birth, type your phone number and type your date of birth in mm/dd/yyyy format.
   - If you have only person number available, select I have my Person Number, and type your person number.

4 Click Next.

Note: If your email address is already associated with an existing account, you will be redirected to the Account credentials page. If you see a message that says your email address is already associated with another account, probably you already have a NextGen Enterprise Patient Portal account using the same email address. You can either add the practice to your existing account or you can type a new email address to create a new account. For more information, see the When Your Email Address is Associated with an Existing Account (on page 20) section.

The Account options page opens.

5 On the Account options page, do one of the following:
   - If you are new to NextGen Enterprise Patient Portal, click Sign up for a new account (see "Create a New Account" on page 12).
   - If you have already enrolled in NextGen Enterprise Patient Portal and you want to add another practice to your existing account, click Add to an existing account (on page 11).
Self-Enroll for NextGen Enterprise Patient Portal Account

If your practice provides you with a portal website enrollment link and advises you to self-enroll, use the self-enrollment link to create a NextGen Enterprise Patient Portal account.

1. Click the enrollment link.
   The Terms and Conditions page opens.

2. Read the terms and conditions and click I Accept.
   The patient portal welcome page opens.

3. In the patient portal welcome page, do one of the following:
   - If you are new to NextGen Enterprise Patient Portal, click Sign up for a new account (on page 18).
   - If you have already enrolled in NextGen Enterprise Patient Portal and you want to add another practice to your existing account, click Add to an existing account (on page 20).

Sign Up for a New Account

1. On the Practice options page, under Select Medical Practice, select your practice from the Practice list.

2. Click Next.
   The Personal information page opens.

3. Under Enter personal information, type your required information such as name, address, phone number, date of birth, and email address.

4. Click Next.
   The Insurance information page opens.

5. Under Enter insurance information (optional), do the following as required:
   - Type your health insurance details.
   - Type the insurance claim mailing address.

6. Select I'm not a robot and click Next.
   The Account credentials page opens.
7 On the **Account credentials** page, under **Set up account**, do the following:
   a) In **Username**, type your username.
   b) In **Password**, type your password.
      For more information about the latest user name and password policies, see the Username and Password Policy (on page 9) section.
   c) In **Confirm Password**, re-type your password.

![](Set up account)

8 Click **Next**.
   The **Security questions** page opens.

9 Under **Set up security questions**, select all five security questions and type the answers. Make a note of the five security questions and associated answers for account recovery in future.

10 Click **Next**.
   A submit enrollment request appears that states that your request has been sent to the practice and pending for approval from your practice. Once approved, you will receive a confirmation email for the same.

11 Do any of the following:
   - If the appointment module is enabled for the practice:
     - To send your enrollment request to the practice for approval, click **Complete enrollment**. You will receive a pending approval message stating that your enrollment request has been submitted and approval is pending from your practice. Once approved, you will receive a confirmation email for the same.
     - To request an appointment before completion of your enrollment, click **Request an appointment**. You will receive a pending approval message stating that your appointment request has been submitted and approval is pending from your practice. Once approved, you will receive a confirmation email for the same.
   - If the appointment module is not enabled for the practice, click **Complete enrollment** to send your enrollment request to the practice for approval. You will receive a pending approval message stating that your enrollment request has been submitted and approval is pending from your practice. Once approved, you will receive a confirmation email for the same.
Add to an Existing Account

1. Under **Verify your account**, type the username and password for your existing account, and click **Next**.
   The **Practice options** page opens.
2. On the **Practice options** page, under **Select Medical Practice**, select your practice from the **Practice** list.
3. Click **Next**.
   The **Person information** page opens.
   The demographics information will be pre-populated. Add or modify the information, if required.
4. Click **Next**.
   The **Insurance information** page opens.
   The insurance information will be pre-populated. Add or modify the information, if required.
5. Select **I'm not a robot** and click **Next**.
   A submit enrollment request appears that states that your request has been sent to the practice and pending for approval from your practice. Once approved, you will receive a confirmation email for the same.
6. Do any of the following:
   - If the appointment module is enabled for the practice, then:
     - To send your enrollment request to the practice for approval, click **Complete enrollment**. You will receive a pending approval message stating that your enrollment request has been submitted and approval is pending from your practice. Once approved, you will receive a confirmation email for the same.
     - To request an appointment before completion of your enrollment, click **Request an appointment**. You will receive a pending approval message stating that your appointment request has been submitted and approval is pending from your practice. Once approved, you will receive a confirmation email for the same.
   - If the appointment module is not enabled for the practice, click **Complete enrollment** to send your enrollment request to the practice for approval. You will receive a pending approval message stating that your enrollment request has been submitted and approval is pending from your practice. Once approved, you will receive a confirmation email for the same.
When Your Email Address is Associated with an Existing Account

During enrollment, if you see a message on the Account credentials page that says your email address is already associated with another account, use the following information to determine the relevant method in NextGen Enterprise Patient Portal.

<table>
<thead>
<tr>
<th>If You are enrolling in NextGen Enterprise Patient Portal using a token</th>
<th>Scenario</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• If your email address is already associated with an existing account and your name and date of birth matches the existing account's information, you can do one of the following:</td>
</tr>
<tr>
<td></td>
<td>▪ Log on to the existing account and append or add a new practice to the existing account.</td>
</tr>
<tr>
<td></td>
<td>▪ Enter a new email address and complete the enrollment process. A new NextGen Enterprise Patient Portal account will be created. After completing enrollment, you will receive an email to verify your email address. Open the email and verify your email address.</td>
</tr>
<tr>
<td></td>
<td>▪ If your email address is already associated with an existing account and your name and date of birth does not match the existing account's information, you must type a new email address and complete the enrollment process. A new NextGen Enterprise Patient Portal account will be created. After completing enrollment, you will receive an email to verify your email address. Open the email and verify your email address.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>If You are enrolling in NextGen Enterprise Patient Portal using an invitation link</th>

</tr>
</tbody>
</table>
After you have successfully enrolled in NextGen Enterprise Patient Portal, you can access your NextGen Enterprise Patient Portal account.

**Change NextGen Enterprise Patient Portal Language**

NextGen Enterprise Patient Portal provides multi-language support. The website displays in English by default. You can change your preferred language before or after you logon.

- To change the language before you log on, from the list on the top-right corner of the page, select the language.

- To change the language after you log on, from the list on the bottom-right corner of NextGen Enterprise Patient Portal, select the language.

**NextGen Patient Access API**

You can access your health data through other applications and websites using NextGen® Patient Access API (formerly NextGen Ambulatory Patient API). To learn more about NextGen Patient Access API, click the link provided in the following message.

If you do not want to see the message, you can close the message. To view it again, click the **API Info** link at the bottom of every page.
Log On to NextGen Enterprise Patient Portal Account

1. Access the NextGen Enterprise Patient Portal website.

2. Enter your Username and Password and click Log In.

For more information about username and password policy, see Username and Password Policy (on page 9).

The practice which you are currently enrolled can provide you with an option to receive only electronic statements. If you are enrolled to receive only electronic statements, click Go Paperless. Otherwise click Decide Later. You can register your preference later. For more information about enabling this notification, see the Manage Statement Notifications (on page 98) section.

Based on the practice configuration, the portal also displays a disclaimer related to PHRs and Medications. For more information about the disclaimer, see the Disclaimer Related to PHR and Medications (on page 25) section.
Your Home page displays your account name on the top left.

Log Off from NextGen Enterprise Patient Portal Account

To log off from your NextGen Enterprise Patient Portal account, click the Log Out link at the top of the page.
NextGen Enterprise Patient Portal Session Time Out

If NextGen Enterprise Patient Portal does not detect any activity for more than 20 minutes, it automatically logs you off. Before logging you off, the portal prompts you to extend the session. Click **Continue** to extend the session.

![Continue dialog box](image)

**Recommendation**: NextGen Healthcare recommends you to log off before exiting the NextGen Enterprise Patient Portal website to ensure security of your health information.

Locked Accounts

You cannot access your NextGen Enterprise Patient Portal account:

- If you type incorrect logon details four times consecutively, the portal locks your account. After your second and third failed attempts to log on, NextGen Enterprise Patient Portal displays an alert message stating that your account has been locked because of incorrect logon attempts.

  Your account will be automatically unlocked only after 20 minutes. You can logon using the correct credentials after this session.

- If the practice locks your account, you will receive an email stating that your account is locked and you need to contact the practice to unlock your account. During this time, you will not be able to access any mail or perform any tasks (except for the Research Center). After the practice unlocks your account, you will receive another email stating that the account has been unlocked.

Change the User

The Patients list on the top-right displays the name of the logged in user. If your account is associated with multiple accounts, the patients list also displays the list of the persons or dependents whose accounts you manage. You can select the name of a person or dependent from this list to view their records.
Disclaimer Related to PHR and Medications

Your NextGen Enterprise Patient Portal displays your health-related information only from the practices you are enrolled in. If configured by practice, NextGen Enterprise Patient Portal displays a disclaimer regarding your PHRs and medications when you log on to your portal account. You can do one of the following:

- Read and then acknowledge the disclaimer by clicking **OK**.
- Click **x** to dismiss the disclaimer and read it later. If you click **x** and close the disclaimer, the disclaimer will be displayed every time you log on to your portal account until you acknowledge it by clicking **OK**.

You can also view the disclaimer any time from the dashboard. The ⚠️ icon in the following sections allow you to view the disclaimer:

- on the top-left corner of the home page for PHR related message.
- in the **Medications** section for medications related message.
- in the **Renew Medications** section for medications related message.
Recover Logon Details

You can perform any of the following:

- Recover username
- Reset password
- Reset password with a reset token

**Note:** You can recover your username or reset your password easily, if you have provided your email address during enrollment and verified your account email address. When you submit a recover username or reset password request, a notification containing the username or password reset link is sent to your account email address (verified unique account email address). If you have not provided your email address during enrollment and have not verified your account, you must remember your valid username and security questions. If you are not able to recover your username or reset your password, contact your practice.

Recover Username

If you have a verified account email address or notification email address, you can recover your username using the **Forgot username** link. If you do not have either a verified account email address or notification email address, you must contact your practice to recover your username.

1. Access the NextGen Enterprise Patient Portal website logon page.
2. Click **Forgot username**.

3. Type your verified account email address.

4. Click **Submit**.

**Note:** If you do not have a verified account email address, type your notification email address and click **Submit**. Then, you must type your Last Name, Date of birth (mm/dd/yyyy) and click **Submit**.
A message appears notifying you that an email containing your username has been successfully sent.

5 Open the email to view your username.

**Reset Password**

If you have a registered email address, you can reset your password using the *Forgot Password* link. If you have not provided your email address during enrollment and have not verified your account, you must remember your valid username and security questions.

1 Access the NextGen Enterprise Patient Portal website logon page.
2 Click *Forgot password*.

3 Type your registered verified account email address.

**Note:** If you have not provided your email address during enrollment and have not verified your NextGen Enterprise Patient Portal account, you must remember your valid username and security questions. The system will ask you to answer *two* security questions that you have already set up. You will get *three* attempts to give the security answer for each of the *two* questions. Answering the correct answers will redirect you to the *Reset Password* page. Unsuccessful attempts will lock your account for 20 minutes. For more information about locked accounts, see the Locked Accounts (on page 25) section.
4 Click Submit.

A message appears notifying you that an email containing your password reset link has been sent.

5 Open the email you received and click Password Reset.

**Note:** The password link in the email expire is subject to your practice settings. Your password validity is provided in the password reset email. Password recovery email is unique to your verified account email.

6 Under the Reset Password page, enter the following information:
   a) Type your password.
   b) Re-type your password.

7 Click Submit.

The NextGen Enterprise Patient Portal home page appears.

**Reset Password with a Reset Token**

If you have not provided your email address during enrollment and have not verified your account, you must remember your valid username. To get a password reset token, contact your practice.
1  Go to the NextGen Enterprise Patient Portal website logon page.
2  Click I have my password reset token.

3  On the Forgot password page, do the following:
   a) Type the token number provided by your practice.
   b) Type your username.

4  Click Submit.

**Note:** If you have not registered your email address, type your email address, and click Submit. If you do not wish to provide email address, select I do not wish to provide an email address.
5 On the Reset Password page, do the following:
   a) Type your password.
   b) Re-type your password.

6 Click Submit.
   The NextGen Enterprise Patient Portal home page appears.
CHAPTER 4

Your Mail

You can send messages, view messages, or reply to messages sent by your practice. You can also perform the following:

- View documents sent by your practice
- View appointments
- View medications
- Make payments
- Complete and submit online forms
- Complete and submit Interactive Medical History forms
- Access Personal Health Record
- Access communications regarding appointments

View Your Messages

You can view inbox messages, documents, forms, PHR, and interactive forms sent from your practice. On the NextGen Enterprise Patient Portal home page, click the Mail tab, and then select Inbox.
1 From the **Inbox**, you can:

- View your appointments from inbox: For more information about view your appointments from inbox, see the View Your Appointments from Inbox (on page 33) section.
- View attached documents: For more information about view attached documents, see the View Attached Documents (on page 34) section.
- Access statement from inbox: For more information about access statement from inbox, see the Access Statements from Inbox (on page 35) section.
- View medications: For more information about view medications, see the View Medications (on page 36) section.
- View messages: For more information about view messages, see the View Messages (on page 37) section.
- Reply to messages: For more information about replying to messages, see the Reply to Messages (on page 38) section.
- Submit a form: For more information about submit a form, see the Submit a Form (on page 38) section.
- Submit an interactive medical form: For more information about submit an interactive medical form, see the Submit an Interactive Medical Form (on page 40) section.
- View Personal Health Records: For more information about view Personal Health Records, see the View Personal Health Record (PHR) (see "View Personal Health Records (PHR)" on page 41) section.
- Delete inbox items: For more information about delete inbox items, see the Delete Inbox Items (on page 41) section.
- Print inbox items: For more information about print inbox items, see the Print Inbox Items (on page 42) section.

**View Your Appointments from Inbox**

You can view your appointments, and respond to pending appointment requests, if required. Pending appointments are those appointments that need to be accepted by you. Booked appointments are appointments which are accepted by you or an appointment scheduled with your practice.

1 On the NextGen Enterprise Patient Portal home page, click **Mail** tab, and then click **Inbox**.
2 From the **Type** list, select **Appointments**, and then click an appointment communication.

![Appointment Communication](image)

3 Depending on the type of appointment, you can:
   a) Accept an appointment.
   b) Reply to an appointment request with a reason.
   c) Recall an appointment request.
   d) Print an appointment.
   e) Export your booked appointment to a Calendar.
   f) Remove an appointment. (Removing an appointment is not the same as canceling your appointment in the practice scheduled appointment list).

**View Attached Documents**

You can view documents shared by your practice. To view attached documents, you require Adobe® Acrobat® Reader. If you do not have it installed, you can download and install it from the Adobe website [https://get.adobe.com/reader/](https://get.adobe.com/reader/).

1 On the NextGen Enterprise Patient Portal home page, click **Mail**, and then click **Inbox**.

![Inbox](image)
2 From the Type list, select Documents, and then click a document communication. If you are not able to view your document, click on this link to download the attached document and open it with Adobe Reader.

The comments entered by your practice appear on Document Comments. You can view your practice comment in the Document Comments window, if you are viewing the document for the first time.

**Access Statements from Inbox**

You can view statements sent by your practice from your inbox.

1 On the NextGen Enterprise Patient Portal home page, click Mail, and then select Inbox.
2 From the **Type** list, select **Statements**, and then click a statement communication.

![Patient Portal Screen](image)

**Note:** The **Pay Now** button is disabled for Care Managers with View Only access for their dependent’s NextGen Enterprise Patient Portal account and the Care Managers are not allowed to pay bills on behalf of their dependents.

If the **Pay Now** button is not active, it may indicate that you have opted to use an APC plan. For more information about automatic payment plan, see the Automatic Payment Collection Plan (on page 68) section.

3 From the statements details page, do any of the following:
   - Click **View Statement** to view statement.
   - Click **Pay Now** to make a payment.

For more information about statements see the Statements (see "Your Statements" on page 65) section.

### View Medications

You can view your medications sent by the practice from your inbox.

1 On NextGen Enterprise Patient Portal home page, click **Mail**, and then click **Inbox**.
2. From the Type list, select Medications, and then click a medication communication.

For more information about medication see the Renew Medication (see "Your Medications" on page 76) section.

**View Messages**

You can view your Messages from your practice from your inbox. You can also view your PHR from My Chart.

1. On the NextGen Enterprise Patient Portal home page, click Mail, and then click Inbox.

2. From the Type list, select Messages, and then click a message communication.
Reply to Messages

You can respond to messages sent by practice based on your practice configurations for NextGen Enterprise Patient Portal. If the provider has marked the message as do-not-reply, you cannot reply to message.

1. On NextGen Enterprise Patient Portal home page, click Mail, and then click Inbox.

2. From the Type list, select Messages, and then click a communication containing message.

3. From the message details, you can:
   - Click Reply to reply to a message
   - Click Remove, to remove a message
   - Click Print, to print a message

Submit a Form

If your practice has sent you forms, you can complete and submit them online.

1. On the NextGen Enterprise Patient Portal home page, click Mail, and then click Inbox.
2 From the **Type** list, select **Templates**, and then click a communication containing template or templates.

3 Read the instruction and provide the required information on the template. Click **Next** if form contains more than one page.

4 To submit a completed form, click **Submit Completed Forms**.
Submit an Interactive Medical Form

Interactive Medical History forms are questionnaires designed to record medical history and diagnostic information prior to your visit.

If your practice sends you interactive medical forms, you can complete and submit them online.

1. On the NextGen Enterprise Patient Portal home page, click Mail, and then click Inbox.

2. From the Type list, select Interactive Medical Form, and then click communication containing IMH.

3. From interactive medical form, you can:
   - Click Next to proceed to the next question
   - Click Back to return to the previous question
   - Click Skip Question to skip the question

4. Review your information and perform any one of the following:
   - Click Start Over, to go back and start from the first question.
   - Click Submit, to send the completed form to the practice.
View Personal Health Records (PHR)

You can view your PHR by your practice from your inbox. You can also view your PHR from My Chart.

1. On the NextGen Enterprise Patient Portal home page, click Mail, and then click Inbox.

![Image of NextGen Enterprise Patient Portal home page with Mail and Inbox highlighted]

2. From the Type list, select Personal Health Record, and then click a PHR communication.

![Image of NextGen Enterprise Patient Portal message page with Personal Health Record highlighted]

Most recent PHR update appears on the top of the message list.

3. From the PHR message page, you can:
   - Click Download My Data to download and save the chart.
   - Click Save CCDA to save the medical chart in your local drive.
   - Click Send to send the chart to another provider.
   - Click Go back to my chart to go back to your chart.
   - Click Who has viewed my chart, to find viewers for your chart.

Delete Inbox Items

You can delete inbox items from your inbox.

1. On the NextGen Enterprise Patient Portal home page, click Mail, and then select Inbox.

2. Perform one of the following actions:
   - To delete individual items, select the check box next to an item you want to delete.

![Image of NextGen Enterprise Patient Portal inbox with check box selected]
• To delete all items, select the check box before Type on the top or the check box before Delete.

3 Click Delete and click OK.

**View Sent Items**

You can view all your sent messages.

1 On the NextGen Enterprise Patient Portal home page, click Mail, and then click Sent Items.

2 From the sent item, you can:
   • Filter the messages.
   • Sort the messages in ascending or descending order.
   • View the messages in the next page or select the page number.
   • To open a message, click an item from sent items.

**Print Inbox Items**

You can print your inbox items after opening them from your inbox. To print PHRs and documents, you must first save them as PDF files and then print them.

1 On the NextGen Enterprise Patient Portal home page, click Mail, and then click Inbox.
2 Open a message.

3 Click Print.
4 Select a printer, and click Print.
Send Messages

You can send messages to your practice.

1. On the NextGen Enterprise Patient Portal home page, click **Mail**, and then select **Compose Message**. Red asterisk indicates the required information.

   ![Compose Message](image1)

   **Note:** By default the last selected practice will appear in the Practice field.

2. Under **Select Practice and Patient**, from the **Practice** list select a practice to which you want to send the message if you are enrolled to multiple practice.

   ![Select Message Category and Recipient](image2)

3. In the **Select Message Category and Recipient** section:
   a) From the **Category** list, select the type of message you want to send.
   b) From the **To** list, select the recipient of the message.
   c) In **Subject**, type the subject of the message.
   d) In **Message**, type your message.

4. Click **Submit**. A confirmation message appears for your sent message.
**View Sent Items**

You can view all your sent messages.

1. On the NextGen Enterprise Patient Portal home page, click **Mail**, and then click **Sent Items**.

2. From the sent item, you can:
   - Filter the messages.
   - Sort the messages in ascending or descending order.
   - View the messages in the next page or select the page number.
   - To open a message, click an item from sent items.
This section provides information about using the Schedule tab to schedule and view appointments.

Request Appointments
Depending on how your practice schedules and books appointment requests received from NextGen Enterprise Patient Portal, you can:

- Submit an appointment request by selecting a preferred date and time and wait for a response from the practice.
- Book an appointment yourself, by searching online for an available appointment schedule date and time.

Create an Appointment Request
1. On the NextGen Enterprise Patient Portal home page, click Schedule, and then click Request Appointment.
2. Under Select Your Medical Practice, select a practice.
3. Under Select Provider and Location, do the following:
   - From Select provider/group, select the provider or group for your appointment.
   - From Select category, select type of appointment you want to schedule.
• From **Select location**, select office or facility location where you want to schedule the appointment.

![Select location](image)

• To view the address of the selected location, click the **Address** link.

If required, use the **Click to show a map of the address** link to view the location on a map. The map opens in a new window.

![Address information](image)

4 Submit the request and wait for a response.

**Submit the Request**

If you have selected a category that allows you only to submit a request for appointment, you can send a request with your preferred date and time. You must wait for a response from the practice. You must then reply to the response to confirm the appointment or suggest another time.

1 Create an Appointment Request (see "Request Appointments" on page 45).

2 Under **Submit Request**, enter or select the following information:

   • Enter the reason for the appointment in **Reason for appointment**.
   • From **Priority**, select the level of urgency (Low, Normal, or High).
   • From **Make appointment for**, select the time frame for your appointment.
   • In **Start date** and **End date**, select the start date and end date when you would like to schedule the appointment.
   • From **Preferred date/time**, select a time within the hours of operation, and then select a corresponding check box for the day when you would like to schedule the appointment.
- From **Alternate date/time**, if available, select an alternate date and time when you would like to schedule the appointment. You can also select a corresponding check box for the day when you would like to schedule the appointment.

3 Click **Submit**. A message indicating that your appointment request has been successfully submitted displays.

When the practice responds to your request, you will receive an email notifying you to log on to your account to review the appointment request response.

4 Open the request response to view if the appointment was booked or is pending.

5 If the suggested time is not suitable, you must either cancel or reschedule the appointment, and then create a new request.

---

**Book an Appointment Online**

Based on your practice’s portal preferences, you can book an appointment online.

1 Create an Appointment Request.

2 Under **Search Appointment**, enter or select the following information:

   - Enter the reason for the appointment in **Reason for appointment**.
   - From **Priority**, select the level of urgency.
   - From **Make appointment for**, select the time frame for your appointment, such as next week or next month.
- In **Start date** and **End date**, select the start date and end date when you would like to schedule the appointment.
- In **Preferred date/time**, select a time within the hours of operation, and then select a corresponding check box for the day when you would like to schedule the appointment.

3 Click **Search**. Select an appointment from the list.

**Note:** If there are no appointments available for the date and time you selected, either select a different date and time and search again, or click **Submit Request** to have the practice respond.
4. To view more available appointments, click **Load more**. To go back to view more available appointment, click **Back to first available**.

5. Select an appointment, click **Book Appointment**.

6. Click **Make another appointment**, to make another appointment.

7. Click **Print for your records** to take a print of booked appointment.
Accept a Pending Appointment Request

When you send an appointment request, the practice can book the appointment or reply with an available schedule. A pending appointment request appears in your Inbox when the practice replies to your appointment request with a scheduled time. When you receive a pending appointment request from a practice you must accept the request to schedule the appointment.

1. Open the pending appointment from the Inbox.

2. Click Accept. A message notifies that your appointment response has been successfully submitted.

Reply to a Pending Appointment Request

You can send a reply to a pending appointment request if required.

1. From Mail, click Sent Items and open the pending appointment.
2 Click Reply.

3 In Reason for new appointment, enter the reason to change the appointment.

4 Click Send. A message notifies that your appointment reply has been successfully submitted.

**Cancel an Appointment Request**

You can cancel a pending appointment request.

1 From Mail, click Sent Items, and then open a pending appointment.

2 Click Recall Appt. Request.

3 Click OK.

The pending appointment request is canceled.
Reschedule a Booked Appointment

You can reschedule a booked appointment before the appointment date.

1. From Schedule, click My Appointments, and then open a booked appointment.
2. Click Reschedule This Appointment.

3. You can also click Reschedule for the appointment in the Upcoming Appointments section in the Home page dashboard.

Note: The Reschedule This Appointment link is not available when reasons to reschedule are not set up by the practice. Contact the practice to reschedule the appointment.

Select a Reason, and then click Submit. The selected appointment's status is set to Cancelled.

4. You can now start a new appointment request.

Cancel a Booked Appointment

If needed, you cancel an appointment that was booked using your NextGen Enterprise Patient Portal account.

1. From the Schedule tab, click My Appointments, and then open a booked appointment.
2. Click Cancel This Appointment.
3 From the **Reason** list, select a reason, and then click **Submit**.

![Submit Button]

**Note:** The **Cancel This Appointment** link will not be available when reasons to cancel are not set up at the practice. Contact the practice to cancel the appointment.

4 The selected appointment's status is set to **Canceled**. You can also click **Cancel** for the appointment in the **Upcoming Appointments** section in the Home page dashboard.

### Delete a Pending Appointment Request

You can remove a pending appointment request that is redundant or elapsed.

1 From **Mail**, click **Inbox**, and then open a pending appointment.

2 Click **Remove**.

![Remove Button]

3 Click **OK**.

![OK Button]

**Note:** The removal of an appointment is the removal of the item from your Inbox. It does not notify the practice and it therefore is not a cancel, reschedule, or remove off the practice appointment list.

The pending appointment request is removed from the patient account.
**Viewing Appointments**

The My Appointments page displays a list of all the booked and canceled appointments. You access the My Appointments page from the **Mail** tab or by clicking **Upcoming Appointments** on the Home page. You can open and print, cancel, reschedule, or delete appointments.

**Export an Appointment**

You can export booked appointments as .ics files and import them into any calendar or scheduling application that supports the .ics format. For example, Apple® Calendar or Microsoft® Outlook®. This helps you view your appointment details on any device that has a calendar application, without opening your NextGen Enterprise Patient Portal account.

**Note:** You can export and save only the future appointments in the .ics format.

1. From **Schedule**, select **My Appointments**.
2. From the list of booked appointments, click an appointment to export.
3. Click **Export to Calendar**.
4. The appointment is saved as a .ics file. When prompted, you can open it directly or save it to your device.
Chapter 6

Your Personal Health Records

You can view your clinical data or request a PHR that contains your medical history from your practice.

1 On the NextGen Enterprise Patient Portal home page, click My Chart, and then click View My Chart.

2 Click a chart item on the left to view the details.

The following table provides a description of the various sections of a patient's chart.

<table>
<thead>
<tr>
<th>Chart Item</th>
<th>Displays</th>

</table>

1. Click **Download and send my chart** to save your chart as a PDF. For more information about downloading and sending your chart details, see the topic, Download My Chart as PDF.
2. Click **Who has viewed my chart** to view the activity log of a patient chart. For more information about viewing your chart activity log, see the topic Who Viewed My Chart.

### Save Your Personal Health Records

A Patient Health Record (PHR) is a document that contains information from your chart. It can include allergies, medications, conditions, lab results, vital signs, immunizations, procedures, insurance, social history, family history, advanced directives, instructions, referral reasons, plan of care, demographic info and functional status. You must have Adobe® Acrobat® Reader installed to open and view the file on your computer. You can save and download your PHR as a PDF or C-CDA document.

### Download Personal Health Records as PDFs

To view the file, you must have Adobe® Acrobat® Reader installed.

1. From **My Chart**, click **View My Chart**.
2. Click **Download and send my chart**.
3. From **Chart revision date**, select the visit date.
4 Click **Download My Data**.

5 Click **Save** and select a folder location.

6 Click **Save**.

**Download PHRs as C-CDA (XML) Documents**

A C-CDA (Consolidated Clinical Document Architecture) document is similar to a PHR, but it uses a healthcare industry standard to organize information and it is formatted in XML. You can take this file to other practices or healthcare entities and they can import the information from this file into their system.

1 From **My Chart**, click **View My Chart**.

2 Click **Download and send my chart**.

3 From **Chart revision date**, select the visit date.
4  Click **Save CCDA**.

![Patient Portal](image)

5  Click **Save** and select a folder location.

6  Click **Save**.

**Request Your Personal Health Record**

You can request a PHR from a practice. When you receive your PHR, you can view it and save it to a storage device such as a CD, smart card, or USB flash drive.

1  From **My Chart**, click **Request Health Record**.

   **Note:** If you are a care manager, the **Patient** appears in **Select Practice and Patient**. To request the PHR on behalf of a dependent, select the name of the dependent from the **Patient** list. To request the PHR for yourself, select **Self** from the **Patient** list.

2  If you are enrolled in multiple practices, select the **Practice** to which the request is to be sent.
3 From **Chart Date**, select the chart date range from the following options:
   - **All**: to request full PHR or consolidated PHR.
   - **Last 30 Days**: to request PHR for last 30 days.
   - **Last 60 Days**: to request PHR for last 60 days.
   - **This Year**: to request PHR for current year.
   - **Previous Year**: to request PHR for previous year.
   - **Custom**: to request PHR between from and to date.

4 Click **Submit**.

A message appears notifying you that your Personal Health Record request has been successfully submitted.
Send Your PHR

You can send your PHR to any provider or healthcare entity using their DIRECT address (a DIRECT address is not the same as a regular email address). You can contact your provider for the DIRECT address or perform a search to obtain it. The following links are available for sending PHR:

- I want to search for my provider
- I have my provider’s DIRECT access
- I want to send to someone else

Note: The links to search for provider and send PHR, send PHR to provider using direct access, and send PHR to third-party using email address are disabled for Care Managers with View Only access for their dependents NextGen Enterprise Patient Portal account and an alert message You have View Only access for your dependent PHR module appears.

Search for a Provider and Send Your PHR to the Provider

You can search for the provider and send the PHR.

1. From Send Chart, click I want to search for my provider.
2 Search for your provider in any of the following ways:
   • Search by Provider
   • Search by Organization

3 From the search results, select the provider to whom you want to send the PHR, and then click **Send My Chart**.
Send Your PHR to a DIRECT Address

Ensure that you have the DIRECT address of the provider.

1. From My Chart, click View My Chart.
2. Click Download and send my chart.
3. From Chart revision date, select the date.
4. Click Send.
5. Click I have provider’s direct address.

6. In Provider's DIRECT Address, enter the provider’s DIRECT address, and then click Send My Chart.
Send Your PHR Using an e-mail Address

1  From Send Chart, click I want to send it to someone else.

2  Type the following details:
   a)  Recipient's e-mail addresses.
   b)  Your message.
   c)  Your password and re-type your password.

3  Click Send My Chart.
   A message appears notifying that your request has been successfully submitted.
See Who Viewed Your Chart

You can view activity log such as logged in username, clinical history for, event description, and event date for your NextGen Enterprise Patient Portal account.

1. From My Chart, click View My Chart.
2. Click Who has viewed my chart.
Your Statements

You can view your statements or make payments against the statements from the Statements tab in NextGen Enterprise Patient Portal.

View Statements

You can opt to receive electronic statements that can be accessed from NextGen Enterprise Patient Portal.

The Statements page displays your or your dependent balances, if any.

Also, you can view the following details:

- Last statement: Your last statements.
- Statement history: Your statement history.
- Online payments: You can view online payment details and you can make online payment from the statement home page, the account balance page, or the view statement page.
- Real time account balance: If your practice has opted, real-time account balance allows you to receive your updated statement whenever you make a payment. This allows you to make multiple partial payments, if required.

View Last Statement

1. On your NextGen Enterprise Patient Portal home page, click **Statements**.
**View Statement History**

1. On your NextGen Enterprise Patient Portal home page, click **Statements**.

2. Click **View Last Statement**.

3. To view your statement history based on filters, select from the following options:
   - If you are enrolled to more than one practice, select the relevant practice.
   - If you are a care manager, select the patient name.
   - If you want to view statement for a specific date, select the date.

4. Click **View Statement**.

5. To return to statement page, click the **Return to Balances** link.

6. To print the statement, click **Print Statement**.
2 Click **View Statement History**.

3 To view your statement history based on filters, select from the following options:
   - If you are enrolled to more than one practice, select the relevant practice.
   - If you are a care manager and you are managing the dependent account, select the relevant patient.
   - If you want to view statement for a specific date, select the date.

4 Click **View Statement**.

5 To return to statement page, click **Return to Balances**.

**View Online Payments**

1 On your NextGen Enterprise Patient Portal home page, click **Statement**.

2 Click **View Online Payments**.
3 From the online details, view the following information:

- **Payment Date**: date and time the payment was made
- **Amount Submitted**: amount of submitted payment
- **Amount Processed**: amount that was processed by the credit card vendor
- **Status**: status of the payment
- **View Details**: payment receipt details

**Automatic Payment Collection Plan**

Automatic Payment Collection (APC) allows you to make payments automatically on a monthly basis. After the APC plan is approved by your practice, you cannot make payments using the Pay Now feature.

The Automatic Payment Plan is currently enabled for this account message appears on the Statements page to inform you about the status of APC plan.

![Automatic Payment Collection Plan](image)

**Note**: If the credit card used for the APC plan is expired or blocked, then you can make payments using the Pay Now feature.

**Opt for an APC Plan**

To opt for an APC plan, you must contact the practice and provide your credit card details.
Make Payments

If your practice has enabled the online payment feature, you can make payments through the NextGen Enterprise Patient Portal for the statements you receive. Refunds are not issued on the portal. Contact your practice for any refund related queries.

**Note:** The **Pay Now** button is disabled for Care Managers with View Only access for their dependent's NextGen Enterprise Patient Portal account and they are not allowed to make payments on behalf of their dependents. If the Pay Now button is not active, it may indicate that you have opted to use an APC plan. For more information about automatic payment plan, see the Automatic Payment Collection Plan (on page 68) section.

1. On NextGen Enterprise Patient Portal, click **Statements**.

2. Click **Pay Now**.

**Note:** Based on your practice configuration, you can make payment using TSYS-Central (Formerly TransFirst), TSYS - Transaction Express, or InstaMed® payment gateway.
3 From **Payment amount**, select one from the following:
   - To pay your total due, click **Pay Total Due**.
   - To pay partial amount, click **Pay Other Amount** and enter the amount.

4 From **Payment Type**, select the preferred payment method from Credit Card or Echeck.
   - If you have selected **Credit Card**, enter the following information and click **Submit**.
     - Credit Card Number
     - Expiration Date
     - Click **Submit**.
   - If you have selected **Echeck**, type the following information:
     - Routing number
     - Account number
     - Re-type account number
     - Bank account type (Checking or Savings)

**Note:** The bank routing number is the nine digits number located on the lower left of your check between the | : | : symbols. The bank account number is located to the right of the routing number and can be up to 17 digits long. There is no specific number of characters for a bank account number. Do not include the check number in either the account or routing numbers. Since each practice has its own payment rules, some of the payment methods may not be available.
By default, the system displays the logged in user’s first and last name in the Cardholder’s name fields.

Also, you can also perform any of the following:

- If you want to update your first name and last name, type your first name and last name.
- If you want to change your billing address, from **Select a billing address**, select **Enter a different billing address** and type the following details:
  - Address lines
  - City
  - State
  - Zip

5 Click **Submit**.

After successfully processing your payment, the system displays your payment receipt, places a copy of the payment in the **Sent Items** folder and sends an email to notify you that your payment was delivered to practice.

**Note:** It may take 24 to 48 hours for the transaction to be posted and appear on your statement.

6 To print the receipt, click **Print this receipt**.
You can view your lab and radiology results from the NextGen Enterprise Patient Portal.

**Viewing Lab Results on the Home Page**

You can view your results from the Results section on the home page.

![Image of NextGen Enterprise Patient Portal]

**Sorting Lab Results in the Results Section**

You can sort your lab results in ascending or descending order by clicking a column header in the Results section. Additionally, you can also click the arrow next to each column header to sort the information in the section.

<table>

Lab Results Not Available Within My Chart

The Lab Results section on the Home page appears differently if aggregation of PHRs fails for a patient. A new section called **Results: Not Available Within My Chart** appears, providing a direct link (View Document) to the PHR document that contains the selected lab results.

The following information appears in **Results: Not Available Within My Chart**:

- Patient Name
- Name of the practice that ordered the tests
- Date the patient received the result on the portal

View Lab Results Details from My Chart

The My Chart page provides the consolidated information from all PHRs. The Results section on the My Chart page provides all consolidated lab results.

1. On the NextGen Enterprise Patient Portal home page, click **My Chart**, and then click **View My Chart**.

![My Chart page](image1)

2. On the **My chart** page, click **Results**, and then click **Details**.

![Results page](image2)

You can view your consolidated lab results details.
**View Lab Results**

You can open a PHR in the Download and Send My PHR page, and then view the results in PDF.

1. On the NextGen Enterprise Patient Portal home page, click **My Chart**, and then click **View My Chart**.
2. On the **My chart** page, click **Download and send my chart**.
3. Select chart revision date on the left, and then click the **Blue Button Download My Data**.
4. Click **Save** and select a location.
5. Click **Save**. Open the saved file and view the result in PDF.

**View Radiology Results**

You can view your Radiology results from the Lab results section on the My Chart page. If the practice has sent you images pertaining to your radiology results, you can view these images in the Inbox as a document.

1. On the NextGen Enterprise Patient Portal home page, click **Mail** tab, and then click **Inbox**.
2  From the **Type** list, select **Documents**.
3  Click the message to view the radiology image.
CHAPTER 9

Your Medications

The medications prescribed at the practice display in your NextGen Enterprise Patient Portal account. You can send a request to your practice to renew your medications online.

Viewing Medications on the Home Page

The Medications section on the home page lists all your medications.

Sorting Medications in the Medications Section

You can sort your prescribed medications in ascending or descending order by clicking a column header in the Medications section. Additionally, you can also click the arrow next to each column header to sort the information in the section.

Renew Medications

NextGen Enterprise Patient Portal provides an easy method of requesting medication renewals. You must allow at least 24 hours to receive a response.

1. On the NextGen Enterprise Patient Portal home page, and then select **Renew Medication**. Or, From the NextGen Enterprise Patient Portal home page, under **Medications**, click **Refill**.

2. On the **Renew Medications** form, under **Select Your Medical Practice** perform the following tasks:
   a) From **Practice**, select the practice to renew your medication.
   b) From **Patient**, select any one of the following:
      - Self: to request medication renewal on your own behalf
      - Dependent name: to request medication renewal on behalf of a dependent, select the name of the dependent

   ![Select Your Medical Practice](image)

   **Note:** If you are a care manager, the **Patient** list is displayed in the **Select Your Medical Practice** section.

3. Under **Select Medications**, a list of medications available for renewal appears.

   ![Select Medications](image)
4 To select different medication, click **Select different medications**.

![Select different medications](image)

5 To view inactive medications, select **Display any inactive medications that may be available for renewal**.

![Display inactive medications](image)

6 Select medication that you want to renew, and then click **Select**.

7 If you select inactive medications, select **Yes, I would like to request the above inactive medication**.

![Yes, I would like to request the above inactive medication](image)

**Note:** If you are not selecting **Yes, I would like to request the above inactive medication** when renewing inactive medications, a warning message appears, click **Submit**.
8 Under **Select Pharmacy**, you can view your preferred pharmacy.

9 If no pharmacy is listed, or you want to select another pharmacy, click **Select different pharmacy**.

**Note**: If you want to add new pharmacy, see Add a new Pharmacy (on page 80).

10 To search all available pharmacies, click **Search**.

To locate a pharmacy, enter the search criteria (pharmacy name, address, city, state, or zip code), and then click **Search**.

If required, click the **Map** icon next to the pharmacy's phone number to view the location in a new window.

11 Click the pharmacy's name to select it.

12 To set the default pharmacy, select **Set as your NextGen Patient Portal preferred pharmacy**.
13 Click **Select**.

14 Under **Submit Renewal**, perform the following:
   a) Select the **Reason** for renewal.
   b) Select the **Provider** to whom you are sending the medication renewal.
   c) In **Comments** enter the reason for the prescription renewal.

![Submit Renewal Form](image)

15 Click **Submit**.
A message appears notifying you that your medication renewal request has been successfully submitted.

**Note:** If you do not select **Yes, I would like to request the above inactive medication** when renewing inactive medications, a warning message appears, click **Submit**.

**Add a New Pharmacy**

You can add a new pharmacy if the pharmacy you want to use does not appear in the pharmacies list.

1 Under **Select Pharmacy**, click **Select different pharmacy**.

![Select different pharmacy](image)
2 Click **Add New**.

![Image of pharmacy addition form]

3 Enter the pharmacy details, and then click **Save**.

**Note:** A red asterisk next to a field name indicates a required entry.

The pharmacy that was just added appears at the top of the list. A **Modify Pharmacy** icon displays before the pharmacy’s name.

![Image of pharmacy list]

4 To change the pharmacy information, click the pharmacy’s name and modify the details.
Chapter 10

Health Education Materials

You can get health education material from the Patient Education tab. The patient education provides you access to Healthwise® Health Information Knowledgebase, which is an online health encyclopedia. You can access educational materials on a variety of patient education, symptom checker, medications, and health decision tools.

Note: Information from this website does not replace the advice of a doctor. Healthwise disclaims any warranty or liability for your use of this information. Your use of this information means that you agree to the Terms of Use. Healthwise is a Utilization Review Accreditation Commission (URAC) accredited health website content provider. Click the following link to find out how this information was developed to help you make better health decisions: (https://www.healthwise.net/nextgen/Content/StdDocument.aspx?DOCHWID=support-abouthw#support-abouthw-editorial).

Search for Health Education Topics

You can search for health educational topics that cover a variety of health topics.

1. On the NextGen Enterprise Patient Portal home page, click Patient Education, and then select Patient Education.

2. You can perform the following tasks:
   - **Search health topics**: The search feature enables you to research health topics. If you received a Healthwise Patient Instruction handout at the office, you can enter the code number at the bottom of the page in the Search field to view that topic or other related topics.
   - **Access interactive tools**: The interactive tools in the Healthwise Knowledgebase provide you with tailored health information just by answering a few questions about your health. You can assess your risk for a heart attack, learn what contributes to stress, or even calculate the calories you burn during a particular activity. Links to these interactive tools appear throughout relevant topics and in the Health Tools section of topics.
   - **View health topics**: With more than 8,000 topics on health conditions, medical tests and procedures, medications, and everyday health and wellness issues, the Healthwise Knowledgebase helps you become informed about your health to enhance partnerships with your doctors for better health decisions.
• **Access learning centers**: Use this feature to learn about medical conditions, how the body works, and other health-related topics.

![Access learning centers](image)

**Use the Symptom Checker**

You can check your symptoms by using the interactive tool that enables you to pick an area of the body, select your symptoms, and view related topics.

1. On the NextGen Enterprise Patient Portal page, click **Patient Education**, and then select **Symptom Checker**.
2. You can type the symptom and find the symptom related problems.

![Use the Symptom Checker](image)
Read about Your Medication

You can get information about medications and take wise health decision.

1. On the NextGen Enterprise Patient Portal home page, click Patient Education, and then click Medications.
2. Type the medication search term, and then click Search.

Health Decision Tools

You can search for related problems and you can get details. It helps you to make decision about your medicines and also duration of intake.

2. Type your problem, and then click Search.

Chapter 11

Settings

You can change your account settings and account information, manage user grants, and add additional practices to your NextGen Enterprise Patient Portal account.

Account Settings

Account Settings allow you to:

- Change the username
- Change password
- Select security questions and provide answers for them
- Choose preferred notifications method
- View and update the account email address
- Unenroll from NextGen Enterprise Patient Portal
- Verify your account using Google Authenticator

Change Username

2. From Username, click Edit.

<table>
<thead>
<tr>
<th>Account Settings</th>

</tr>
</tbody>
</table>
3 Under **Username**, do the following:
   a) Type your new username.
   b) Re-type your new username.

   ![Account Settings Form](image)

   **Note:** Your current username should comply with the latest username policy (see "Username and Password Policy" on page 9).

4 Click **Submit**.
   You will receive a notification email to your verified email address that notifies you that the username for your account has been changed.

**Change Password**

1 On the NextGen Enterprise Patient Portal home page, click **Settings**, and select **Account Settings**.
2 From **Password**, click **Edit**.

![Account Settings Form](image)
3 Under the **Password** details, do the following:
   a) Type your new password.
   b) Re-type the new password.
   c) Type your current password.

   ![Password Form](image)

   **Note**: Your current password should comply with the latest password policy (see "Username and Password Policy" on page 9).

4 Click **Submit**.
   You will receive a notification email to your verified email address that notifies you that the password for your account has been changed. The next time when you log on to NextGen Enterprise Patient Portal, you must use your new password.

### Change Security Questions
1 On the NextGen Enterprise Patient Portal home page, click **Settings**, and select **Account Settings**.
2 From **Security Question**, click **Edit**.
3 Under the **Security Question** details, select each security questions and type the relevant answer and update, as needed.

4 Click **Submit**.

You will receive an email notification to your verified account email address that notifies you that your security questions related information has been changed.

**Change Preferred Notification Method**

1 On the NextGen Enterprise Patient Portal home page, click **Settings**, and then select **Account Settings**.

2 From **Preferred Notification Method**, click **Edit**.

3 Do any one of the following:
   - Click **Delete** next to an existing email address or mobile number.
   - Select **Receive notifications at this e-mail address** to set your email for preferred notifications.

4 Click **Update**.
Verify Email Address for Account Settings Notification

You can get notifications related to your account such as username, password reset, and other account management activities through account email.

In addition, you can perform any one of the following:

- Add your account email address.
- Update your existing account email address.
- Set email as Preferred Notification Method
- Set email address to receive notification for any updates.

1. On the NextGen Enterprise Patient Portal home page, click **Settings** and select **Account Settings**.
2. From **Account Email**, click **Edit**.

3. From **E-mail address**, you can view and update your email address.
You can set the following options:

a) To set the email address as preferred notification method, select **Add it to Preferred Notification Method**.

b) To set the email address to receive notification for any updates related to account settings, select **Receive notification at this email address**.

Click **Update**.

**Note:** If you are adding an account email address or updating your existing account email address, a notification appears on the top of the page indicating an email has been sent to your email address. Open the email and validate your email address.

### Cancel your NextGen Enterprise Patient Portal Enrollment

1. On the NextGen Enterprise Patient Portal home page, click **Settings**, and then select **Account Settings**.

2. From **Un-enroll from Patient Portal**, click **Edit**.

4. Click **Un-enroll**.

5. Click **OK**.

6. Click **OK** to un-enroll your NextGen Enterprise Patient Portal account.
Google Authenticator

You can secure your NextGen Enterprise Patient Portal account using Google Authenticator.

1. On the NextGen Enterprise Patient Portal home page, click **Settings**, and then select **Account Settings**.

2. Under **Google Authenticator**, click **Edit**.

For more information about Google Authenticator, see the Use Google Authenticator to Secure your Account (on page 14) section.
User Grants

The practice can set up relationships and assign care managers for dependents. As a care manager, you will have full or partial access of another user's account (dependent). If you are a dependent, you can allow another user to have full or partial access to your account. For example, a husband can grant his wife permissions to schedule appointments or a patient can allow his/her mother to renew medications. On NextGen Enterprise Patient Portal, you can view the accounts of your dependents, such as child or a parent.

Practices can define a care manager relationship at the time of enrollment or at the request of the patient. Practices can also designate a health care provider to act on behalf of the patient. As a dependent, you can manage the rights and permissions provided to the care manager at any time on your NextGen Enterprise Patient Portal account. Care manager and dependent relationships can be terminated at any time by the care manager, the dependent or the practice.

Care manager and dependent relationships can be terminated at any time by the dependent, or the practice. The dependent can terminate the relationship by corresponding with the practice and the practice then terminates, or the dependent can remove all access from the care manager on the site.

Manage Care Manager Grants

If your account has a care manager, you can provide the rights to view or complete selected information (such as appointments and medications) on your behalf.

You can also set an expiration date for the rights, or remove a care manager from your account.

1 On the NextGen Enterprise Patient Portal home page, click Settings, and then select Manage User Grants.

![Manage User Grants](image-url)
2 Under **Who Manages My Account**, click **Edit** next to the person.

If a person managing your account has full access, all module will be unavailable on Manage User Grants.

3 To assign Care Manager access to individual modules, perform the following:
   - Clear **Allow full access to my account**.
   - To give view permission, for a particular module, select **View**.
   - To give permission to complete or send a module on Manage User Grants, select **Send/Complete** column next to **Module** name.

4 To set a user grant date for your account:
   a) Click **Access expires**.
   b) Click **Calendar** and select the date.
   If you do not want the rights for selected person managing your account to expire, click **Never expires**.

5 To remove a care manager from your account:
   a) Click **Delete**. A confirmation message appears.
   b) Click **OK**.
Manage Dependent Accounts

If configured by the practice, a care manager can view, send, or complete selected information, such as appointments and medications, on behalf the patient (dependent).

As a care manager, you can only view information based on the user rights that are provided to you. Only the patient (dependent) or the practice can provide or modify the access rights.

1. On the NextGen Enterprise Patient Portal home page, click Settings, and then select Manage User Grants.
2. Under Account I Manage, click Edit to view their rights and permissions.

3. Click Delete.

**Note:** This action does not delete the user, but only the access permissions to the account.

A confirmation message appears.

4. Click OK.
Manage Practices

You can add additional practices to your NextGen Enterprise Patient Portal account. You can also un-enroll from a practice.

Enroll to Practices in the same Enterprise

You can enroll in multiple practices within the same enterprise when you log on to your NextGen Enterprise Patient Portal account.

1 Log on to your NextGen Enterprise Patient Portal account.
2 Select a new practice name.

3 Click Add Selected Practice(s). The selected practices are added to your account and you can view your practice on the Home page and Manage Practices page.

You can perform the following additional actions:

- Click Decide Later to complete enrollment.
- Click Decline Pending Enrollment if you do not want to enroll in a practice.

Note: If you decline enrollment the first time, you must request the practice to provide a security token to enroll again.

Confirm Pending Enrollment Requests

If you chose to add practices for same enterprises later, you can confirm pending enrollment request.

1 On the NextGen Enterprise Patient Portal home page, click Settings, and then select Manage Practices.
2 Click **Add this practice to my account.**

![Manage practices](image)

3 Click **Complete Enrollment.**

**Note:** Click Decline Pending Enrollment if you do not want to enroll to a practice(s). If you decline enrollment, you must request the practice to provide a security token to enroll again.

### Enroll in another Practice

After completing your enrollment process with your practice, you can add another practice without performing the enrollment process. You do not need to use the link provided in the enrollment notification email sent by the new practice instead, use the following procedure.

**Note:** The patient should inform the new practice that they already have a NPP account.

1 On the NextGen Enterprise Patient Portal home page, click **Settings**, and then select **Manage Practices.**

![Manage practices](image)
2 Enter the token number, and your date of birth.

3 Enter your email address in Email Address.

   **Note:** If you do not have an email address click I do not have an email address, and then enter your last name.

4 Click Submit.

   A confirmation message appears.

5 Click OK to continue.

---

**Un-enroll from the NextGen Enterprise Patient Portal**

You can un-enroll from the NextGen Enterprise Patient Portal at any time.

1 On the NextGen Enterprise Patient Portal home page, click **Settings**, and then select **Manage Practices**.

2 Under **You are currently enrolled in the following practices**, click **Un-enroll me from this practice**.

3 From **Reason**, select an applicable reason for un-enrolling from the practice.

4 Click **Un-enroll**.

   A confirmation message appears.

5 Click **OK** to remove your NextGen Enterprise Patient Portal account.
Manage Statement Notifications

Based on your practice, you can receive only electronic statements through NextGen Enterprise Patient Portal.

If you want to receive both electronic and paper statements, do not select the option.

1 On the NextGen Enterprise Patient Portal home page, click **Settings**, and then select **Statement Notifications**.

2 Perform one of the followings:
   - Select **Receive only electronic statements** to receive only online statements for all practices that provide this service.
   - Clear **Receive only electronic statements** to receive both electronic and paper statements for all practices.

For multiple practices that provide this service and if you want to select different options for each practice, select or clear the corresponding practice as needed.

3 Click **Submit**.
CHAPTER 12

Troubleshooting

Use this troubleshooting section when you need answers to common problems that you may encounter for the following:

- Locked Accounts (on page 99)
- Recover Username (on page 99)
- Reset Password (on page 100)
- Reset Password with a Reset Token (on page 100)

Locked Accounts

The portal locks your account after four unsuccessful log on attempts. After your second and third failed attempts to log on, a message appears notifying you that your account will be locked for 20 minutes after 3 unsuccessful attempts.

You cannot access your NextGen Enterprise Patient Portal account once your account is locked. You can click Forgot username, Forgot password, or I have my password reset token to recover your logon details from your NextGen Enterprise Patient Portal logon page. Your account will be automatically unlocked after 20 minutes.

If the practice locks your account, you will receive an email stating that you need to contact the practice to unlock your account. During this time, you will not be able to access any mail or perform any tasks. Only the practice can unlock your account. You will receive another email stating that the account has been unlocked.

View Dependent Accounts

If your account is associated with dependent accounts, the user list appears with a list of the persons or dependents whose accounts you manage on the top right. You can select the name of a person or dependent from this list to view their records.

Recover Username

If you have a verified account email address or notification email address, you can recover your username using the Forgot username link. If you do not have either a verified account email address or notification email address, you must contact your practice to recover your username.
1. On the logon page, click **Forgot username**.
2. Type your verified account email address.
3. Click **Submit**.
   
   **Note**: If you do not have a verified account email address, type your notification email address and click **Submit**. Then, you must type your **Last Name, Date of birth (mm/dd/yyyy)** and click **Submit**. A message appears notifying you that an email containing your username has been successfully sent.
4. Open the email to view your username.

### Reset Password

If you have a registered email address, you can reset your password using the **Forgot Password** link. If you have not provided your email address during enrollment and have not verified your account, you must remember your valid username and security questions.

1. On the logon page, click **Forgot password**.
2. In **Email or Username**, type your username or verified email address.

   **Note**: If you have not provided your email address during enrollment and have not verified your NextGen Enterprise Patient Portal account, you must remember your valid username and security questions. The system will ask you to answer **two** security questions that you have already set up. You will get **three** attempts to give the security answer for each of the **two** questions. Answering the correct answers will redirect you to the **Reset Password** page. Unsuccessful attempts will lock your account for 20 minutes. For more information about locked account, see the Locked Accounts (on page 99) section.
3. Click **Submit**.
   A message appears notifying you that an email containing your password reset link has been sent.

   **Note**: If you are using email address to recover your password but you are not receiving email, computer will ask to type your username.
4. Open the email you received and click **Password Reset**.
5. On the **Reset Password** page, do the following:
   a) Type your password.
   b) Re-type your password.
6. Click **Submit**.
   The NextGen Enterprise Patient Portal home page opens.

**Note**: The reset password link in the email expiration is subject to your practice settings. Your password validity is provided in the password reset email. Password recovery email is unique to your verified account email.
Reset Password with a Reset Token

If you have not provided your email address during enrollment and have not verified your account, you must remember your valid username. To get a password reset token, contact your practice.

1. On the logon page, click I have my password reset token.
2. In the Forgot Password page, do the following:
   a) Type the token number provided by your practice.
   b) Type your username.
3. Click Submit.

   Note: If you have not registered your email address, type your email address, and click Submit. If you do not wish to provide email address, select I do not wish to provide an email address.

4. On the Reset Password page, do the following:
   a) Type your password.
   b) Re-type your password.
5. Click Submit.

   The NextGen Enterprise Patient Portal home page opens.

Reset Password without a UAE and Security

If you have not verified your email address or set up the five security questions, then you can reset your password only once by validating your identity using the Forgot Password? link. If you have reset your password once but have not logged on to authenticate your account, then, the system will direct you to obtain a password reset token from your practice, the next time you forget password.

1. On the logon page, click Forgot Password.
2. In Email or Username, type your username or email address.
3. Click Submit.
4. On the Verify your Account page, enter the following:
   • Username.
   • Date of birth in mm/dd/yyyy format.
   • Last name.
   • First name.
   • Home phone number.

   Note: If home phone number is not available, you can enter any phone number provided during enrollment.
5 Click Next.
6 On the Address Verification page, select your correct address and click Next.
7 On the Reset Password page, do the following:
   • Type your password.
   • Re-type your password.
8 Click Submit.

The NextGen Enterprise Patient Portal logon page opens. You can log on using the new password.
Chapter 13

NextGen Enterprise Patient Portal Mobile

The NextGen Enterprise Patient Portal mobile website is similar in functionality and provides most features that are available on the NextGen Enterprise Patient Portal desktop website.

Supported Devices

For the mobile website, mobile devices running on Android™ 4.0 or higher, or Apple iOS 7.1 or higher are supported. A warning message appears, if the device is not compliant with the NextGen Enterprise Patient Portal Mobile’s security policies.

Supported Browsers

For mobile websites, the following browsers are supported:

- Microsoft® Internet Explorer® 11.0 or later
- Apple Safari®
- Mozilla Firefox
- Google Chrome browser

System Requirements

To view PDF documents sent from the practice, you need the Adobe® Acrobat® Reader. You can download the latest version of the Adobe Acrobat Reader from the Adobe website:

(http://get.adobe.com/reader/)

Note: Depending on your operating system and Adobe Acrobat Reader settings, you may be prompted to download the PDF documents to view them. In some cases, the browser settings or pop-up blocker applications can prevent documents from opening. You must also enable cookies and JavaScript in the browser for smooth functioning. Refer to the appropriate operating system, Adobe Acrobat Reader, browser, or pop-up blocker documentation for more information.
**Access NextGen Enterprise Patient Portal Mobile**

The NextGen Enterprise Patient Portal mobile website is accessible, if you are enrolled in the NextGen Enterprise Patient Portal.

You do not have to download any mobile application to access the NextGen Enterprise Patient Portal. On your mobile device, either open your enrollment email and tap the Patient Portal link, or enter the link in your mobile browser to access the NextGen Enterprise Patient Portal mobile site.

A link at the bottom of the NextGen Enterprise Patient Portal desktop website is available to the Log In page to take you to the mobile site and vice versa.

**NextGen Enterprise Patient Portal Mobile Home Page**

The NextGen Enterprise Patient Portal mobile home page works similar to the NextGen Enterprise Patient Portal desktop website’s home page. Additionally, a calendar is available to view the appointments for the day.
Navigate NextGen Enterprise Patient Portal Mobile

Use the following options to navigate the NextGen Enterprise Patient Portal Mobile:

- Tap the menu at the bottom of the page.
- Tap menu on the top-left corner, and then tap a menu item.
- Tap back to return to the previous page.
- Tap left or right to display the previous and next view.
- Tap down or up to expand or collapse a section.
- Tap down or up to expand or collapse a list.
- Tap the compose message button to send an email to the practice.
- Tap the book appointment button to book an appointment with the practice.
- Tap the send chart button to send your PHR.
- Tap the renew medication button to renew your medication.
Please take a few minutes to provide your feedback on the experience you have had and your preferences on where our user assistance can move in the future to serve your needs better.

Thank you in advance for your valuable time. We appreciate all that you do!
